

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joel S. Armstrong on May 16, 2007.

The application has been amended as follows:

- In Claim 1:
 - (Lines 9 – 18) "the external light to be absorbed by the shading elements would be reflected toward the viewer in a total reflection mode by a back surface of the Fresnel lens sheet facing a projection light source unless the shading sheet would not be placed contiguously with the front surface of the Fresnel lens sheet." Has been deleted.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: On page 5, of Applicants remarks, he points out that the external light rays that are passed through at an incident angle that follows the expression $\theta < 24 + 0.018 \times F$ is not shown by any of the prior art because the transmitted light on the prior art light transmitted light from the projector and not external light.
